

(ISC)² Delaware Chapter
Meeting Minutes
11 Feb 2016
10-11:30 am EST

Delaware Department of Transportation Building
Farmington/Felton Conference Room
800 Bay Road, Dover, DE 19901

(note: Due to a previous commitment Silver, chapter secretary, could not be present during this meeting and the minutes were taken by McKosky, chapter treasurer)

Introduction:

At the start of the meeting, each attendee **introduced themselves**.

Reading of the minutes:

The **November 2015 meeting minutes** were read and approved.

Treasurers report:

The treasurer, McKosky, reported a balance of \$735.14. This total did not include the monies collected for dues during this meeting. The **treasurer's report** was approved.

President's Update:

Thomas, chapter president, reviewed the following items:

Volunteers for future **technical presentation** are requested. Members were reminded to have their presentations submitted to the president 60 days prior to the next meeting.

The **next meeting** will be 12 May 2016, from 10 – 11:30 am at a location, in New Castle, is to be determined. Under consideration for the venue location is DelTech in Stanton.

Old Business:

Membership **Dues** for active members were due during today's meeting. A total of 16 members had paid dues. McKosky, treasurer, noted that he would not fill out forms to acquire funds from companies for member dues, but would continue to provide receipts for monies paid.

Teixeira. Membership, reminded attendees of the availability of the group “Delaware Chapter ISC2” on **LinkenIn**. The attendees agreed that access to this group would require the same criteria as a member of the chapter; namely that they were an ISC2 certified professional or sponsored.

Teixeira was identified as the chapter’s “**Internet Presence**” contact. While other had been identified in a prior meeting, there did not appear to be any progress.

New Business:

An **open forum** and general discussion of, “what are you currently dealing with,” occurred.

Teixeira asked Starkey, Chair Person of the “**Delaware Cyber Security Advisory Council**,” if a memo from the membership citing their support of the Council would be advantages. McKosky commented that we did not think we could sign such a memo from the (ISC)2 but would be willing to have the member form a petition. Starkey indicated that such a memo may be welcome in the future, but not yet.

Starkey wanted to raise the awareness of an upcoming Cyber Security event on 3 May 2016; the “Delaware DigiGirlz Day.”

The purpose of the Delaware DigiGirlz program is to address the declining enrollment of young ladies entering the fields of Science, Technology, Engineering and Math (STEM). Our5 goal is to make an impact on girls to consider higher education and careers in technology to address the needs of tomorrow’s workforce and to dispel the myths that young ladies often harbor about their ability to embrace and lead with technology in their futures.

Technical Presentation:

A **Technical Presentation** was given by McKosky:

False/Positives (or are they?)
Dealing with an abundance of information in Cyber Security

Adjourn:

The meeting was **adjourned** at 11:30 am.
